SPECIFICATION

Feed Roller Aperture	8" x 10" (200 x 255mm)
Feed Roller System	ForstGrip Feed Roller System
Flywheel System	Open Top Flywheel (728 x 30mm) Twin 10" Blades
Engine	55hp Doosan DPF Diesel
No Stress System	AutoIntelligence No Stress Device

SPECIFICATION

Feed System	AutoIntelligence Fully Water & Vibration Proof Touch Pads
Capacity	35 Litres
Noise Level	Lwa 122dB
Machine Width	1535mm
Machine Length	3685mm
Machine Height (Chute On)	2400mm
Weight	1375kg
Brakes	Fully Braked Chassis & Handbrake

FEATURES

CLEAR EASY FILL FUEL TANK

Clear easy fill 30/35 litre fuel tank with large neck for all types of filling method.

STAGE 5 COMPLIANT 55HP DIESEL

Phenomenal performance from a 55hp Doosan DPF diesel. A robust and proven engine offering exceptional performance and chipping speed.

SIMPLICITY OF MAINTENANCE

Two catches and two bolts to access the service part for the machine. One bolt to remove the anvil

STRENGTH

No compromise in quality and strength - all fabrications are flanged and finished to a high standard

OPEN TOP FLYWHEEL SYSTEM

Simply phenomenal velocity when chipping. Forst will throw the chip right to the front of your wagon due to the open top flywheel system with large gusseted draught fins at the rear. Chip is thrown, not blown meaning blockages on wet material are simply not a problem.

FORSTGRIP FEED ROLLER SYSTEM

The Forst Unique feedroller system with emphasis on exceptional crushing power. The ForstGrip top feed roller climbs on an arc toward the timber, pulling the material toward the flywheel and naturally climbing butt ends to make infeed grip exceptional. Twin high tension springs either side of the roller as well as the sheer weight and gravitational pull mean even the toughest forks and limbs are broken

AUTOINTELLIGENCE

A simple yet advanced electrical control system taking care of all the electrics on the machine. Historically electrics on plant and machinery are a troublesome – AutoIntelligence overcomes this with a completely water and vibration proof system designed and tested in the toughest environments. This system gives excellent usability and outstanding reliability, it will also make you aware when servicing is due and will recommend routine maintenance.

TOUCH BUTTON FEED CONTROL

Illuminated touch pad, IP 69 rated feed controls to remove any possibility of water and vibration issues related to electrics. Easily located at either side of the hopper mean that you don't have to lean over the hopper to use them.
